Annual
Report
of the
Town of
Shapleigh.

For the Year Ending
February 21. 

Read the news of Northern York county in particular and the World in general, in the Sanford TRIBUNE. Subscription \$1.00 per year.

The TRIBUNE has made rapid strides in the past two years and today stands equal to any weekly paper published in the County.

It is the intention of the publisher to make The TRIBUNE THE newspaper of this part of York county.

The TRIBUNE has correspondents in all of the towns and villages, and you can get all of the political and general news and also the little town tattle which everybody likes to read.

In its literary department will be found serial and short stories written by the best authors, also original poetry and sketches of historical value to the people of York county.

The TRIBUNE is firmly established and owns its building and complete plant, which is superb and equal to any other weekly paper plant in the State. The type is all set on a type setting machine, printed on one of the very best cylinder presses and folded and trimmed on a splendid perfecting folder.

We want you to become familiar with its pages and in order for you to do so we will send it to you one month free of charge, if you will fill out the following blank and mail it to us.

..... 1901

F. B. AVERILL,

Pub. Sanford Tribune:

Please send the TRIBUNE for one month, free of charge to the following address. Paper to be stopped at the end of the month unless otherwise ordered.

LINDSEY HIGH SCHOOL.

The Spring term was taught by Frank C. Thompson, A. B., of Bates College. Mr. Thompson resigned the first of July to assume a more lucrative position. He was a thorough teacher, of good ability and high integrity. His leaving was regretted, not alone by the school, but by the community at Shapleigh. We were fortunate in obtaining the services of S. B. Marshall, M. D., as principal for the Fall term. George T. Crediford assisted Dr. Marshall. Together they very successfully carried on the work of their predecessor.

Mrs. Nellie Lunny as teacher of music has given good satisfaction in connection with the school. The Spring term now in session is under the instruction of Gibeon E. Bradbury of Bowdoin College, with the assistance of Mr. Crediford, Mr. Bradbury comes to us with that ability, and energy which characterizes a model teacher, we anticipate a prosperous term.

COMMON SCHOOLS.

Each school in town has had twenty-four weeks, three terms of eight weeks each. It was necessary to discontinue the schools at the Pound and Div. 8, and convey the scholars to the nearest school as has been done heretofore. The scholars from Div. 8 were transported to Ross Corner by David Beal and William Sprague, and can report a very good attendance from this division.

Five of the scholars from Div. 4 have attended one of the Sanford schools; as it was thought advisable by the school board to send to Sanford rather than convey them to the school of their own division.

We have changed the Barnes Geographies for the Natural; as it was necessary to purchase several new copies, we thought it were better to select an up-to-date book and turn the old ones into the account towards the new. The Natural advanced contains the new possessions and census of 1900, and is so arranged as to give emphasis to the industrial and commercial features of the study. The predominance of the physical and scientific nature we consider necessary for a text book in our common schools.

It is not my purpose to speak of each school in particular. I can report that on the whole, good work has been done in all the schools. Where parents have co-operated with the teacher success has followed.

I note one sure indication of improvement in our discipline; it is very apparent in some of our schools. The aim of school discipline is not merely the one of good order in the schoolroom, but the inner one of moral improvement in the scholar; it is right conduct from free choice, not compulsion; it is the development of moral character, and the home management supplemented by the efforts and good influences of our teachers, will bring into action the better or higher motives.

He who remembering that all his pupils are to be fitted for citizenship, succeeds in encouraging the difficult, interesting the listless and inspiring the stupid, may be entitled to high rank in the profession.

We are glad to see our flag floating over one of our school houses, and better still to know the children helped their teachers to place it there.

Let the children be taught its history and the thrilling stories of heroism and devotion to the country which clusters around that history as told by orator and poet; and so daily be learning to love and honor the flag. It has been necessary to make a few repairs in order to make the schoolrooms comfortable as well as more convenient and more will be needed the coming year. The school houses at No. 1 and Emery Mills need painting. At No. 9 a new stove is need and the house repaired and painted.

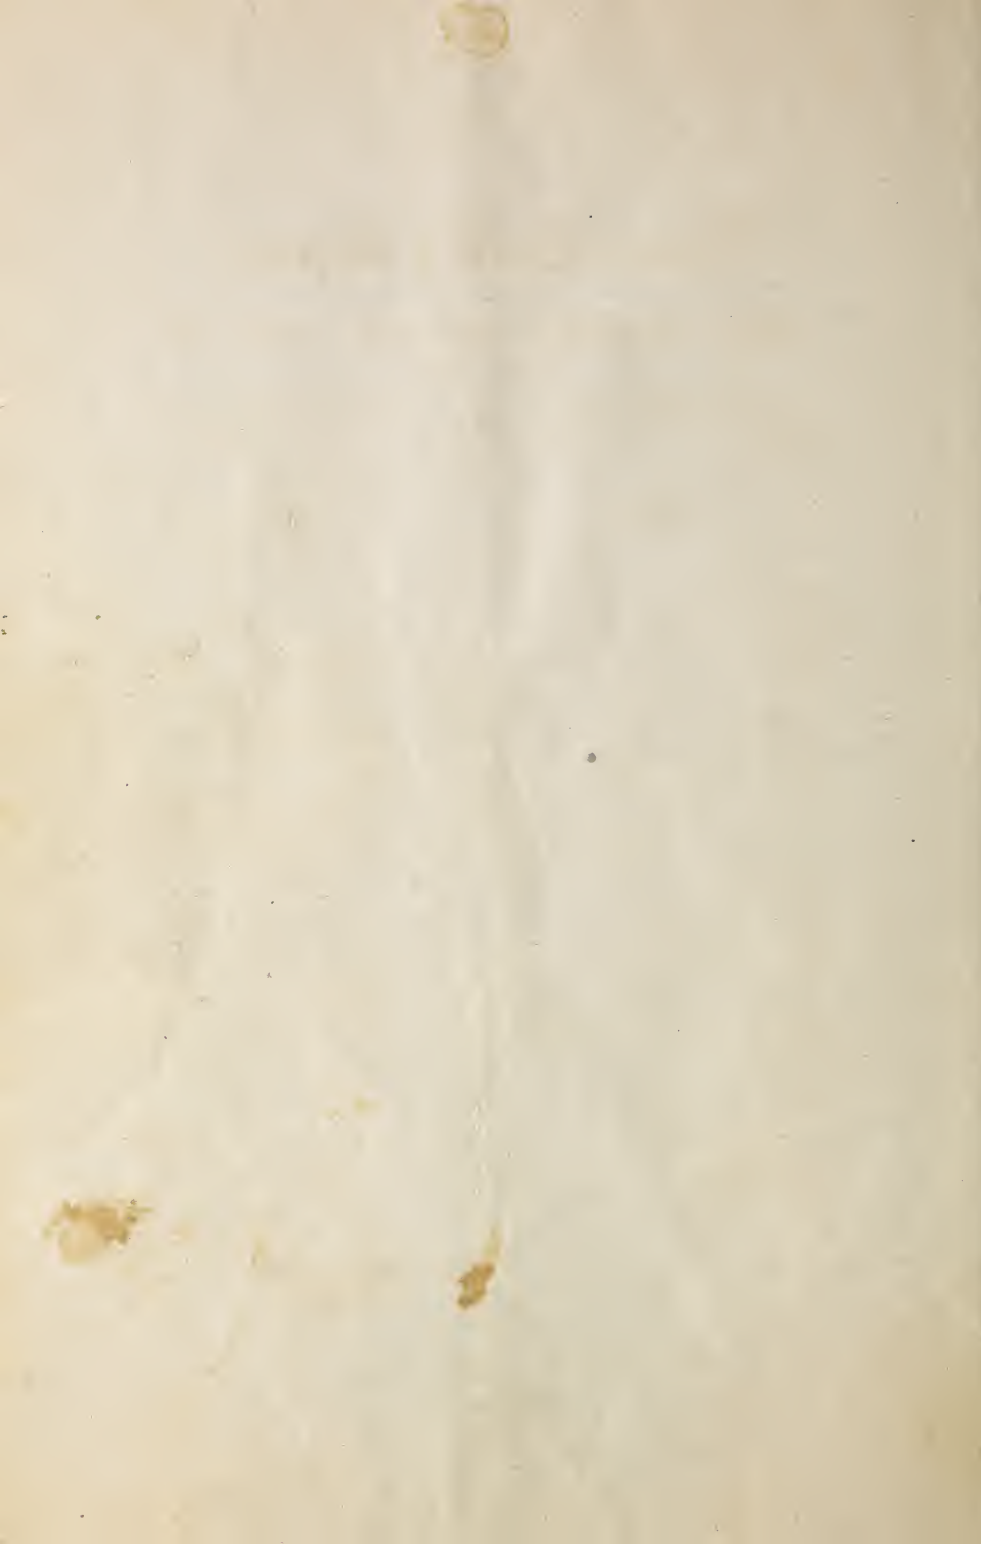

Respectfully,

F. C. STAPLES,

Superintendent of Schools.

Trusses. If your truss hurts or chafes you it is because it don't fit. Come in and let me fit you with a new, light, comfortable truss. Prices, \$1.50 to \$3.00 all fitted.

Sick Hens. Ever have a fowl that seemed to have a cold, coughing, shaking their head, wheezing, rattling and breathing like a person with croup or pneumonia? They usually die you know. I make pills—Roup Pills I call them—that will cure the fowl every time. I have tested them for fifteen years and never knew them to fail. Price 25 cents. Mailed anywhere on receipt of price. Postage stamps taken.
